A/Coordinator ALIVE & Kicking Goals!

My Why:

It is our responsibility to ensure that the world we leave behind for future generations is better than when we entered it. Our young people are our future and for their future to be bright we must invest in them. Collectively we must work towards breaking the cycle of intergenerational trauma, instil pride and create nurturing and supportive environments so they can thrive. I want my daughter to grow up in a world where we honestly acknowledge the past, accept individuals for who they are and work together to lift each other up.

Peer Educator ALIVE & Kicking Goals!

My Why:

Our young people are our future. Growing up in Broome I have seen the impacts of intergenerational trauma and how that affects individuals and the whole community. If I could play even just a small part in making change or breaking the cycle that would give me great purpose in life. Seeing our youth grow into strong leaders and become positive role models for the next generation to come would be an accomplishment for me. I've also been impacted by suicide, whether through personal experience or supporting others. That pain has fuelled my commitment to mental wellness, open conversations, and creating hope where it's needed most.

Timeline:

Started at KAMS in 2014, grew into roles supporting remote Aboriginal health, helped roll out the Australian Family Partnership Program, and joined AKG in July 2025.

Hobbies:

Passions:

I'm very passionate about community, culture, family, and working with our people, elders and youth. These values are the core of who I am. I believe in creating safe, supportive spaces where young people can grow, heal, and find their voice. Culture is what grounds me—it connects us to our roots and reminds us of our strength. It is what holds us together and builds resilience across generations.
